Insight:
The bank manages approximately 10K customers across 1K branches, with ₹502M in balances and ₹256M invested. The North region contributes the highest investment volume, indicating stronger customer engagement.

Recommended Actions:
- Launch premium investment products in the North region.
- Increase investment campaigns in South and East.
- Focus marketing on high-value customer segments.

Insight:
Employee and Individual customers contribute the largest share of investments, making them the bank's most valuable customer segments.

Recommended Actions:
- Design premium investment plans for Employee and Individual customers.
- Launch targeted campaigns for Business customers.
- Improve engagement with Unknown customer segments by collecting missing profile information.

Insight:
Branches 1958, 1342, and 1790 serve the highest-value customers and generate the greatest customer value, making them strategic branches for premium banking services.

Recommended Actions:
- Allocate experienced relationship managers to top-performing branches.
- Replicate successful strategies from high-performing branches.
- Investigate low-performing branches for operational improvements.
