Professional Summary

Data Analytics enthusiast with hands-on experience in **Python, SQL, Excel, and Power BI**, specializing in data cleaning, exploratory analysis, KPI development, and dashboarding. Strong analytical and problem-solving skills with experience transforming complex datasets into **actionable business insights** and supporting data-driven decision-making.

Technical Skills

Programming: Python, SQL
Data Analytics: Pandas, NumPy, SciPy, Data Cleaning, Data Validation, EDA
Visualization Tools: Power BI, DAX, Excel (Advanced), Matplotlib, Seaborn
Machine Learning: Regression, Classification, Clustering, Scikit-learn, XGBoost
Statistics: Descriptive & Inferential Statistics, Hypothesis Testing, A/B Testing
Tools: Jupyter Notebook, Git, GitHub, VS Code
Professional: Analytical Problem Solving, Business Insights, Cross-functional Communication

Work Experience

Infosys Springboard Jul 2026 – Aug 2026
Data Analyst Intern

- Collaborated with a team to analyze **5,000+ supply chain records** covering orders, products, suppliers, warehouses, transportation, delivery, inventory, customers, payments, and returns.
- Performed **data cleaning, transformation, validation, and EDA** using Python and Pandas to identify supplier performance gaps, delivery patterns, inventory issues, and transportation cost variations.
- Built interactive **Power BI dashboards** for Supplier Scorecards, Transportation Cost Analysis, and Route & Carrier Performance, developing KPI measures using **DAX**.
- Translated analytical findings into **actionable recommendations** to improve supplier reliability, reduce transportation costs, optimize delivery performance, and strengthen inventory management.

Projects

E-Commerce Revenue Leakage Analysis · Excel · MySQL · Power BI

- Analyzed **128K+ e-commerce transactions** using **Excel, Power Query, and MySQL** to identify revenue leakage drivers across cancellations, fulfillment, shipping, promotions, products, and geographic segments.
- Developed **9+ business KPIs** and an interactive **3-page Power BI dashboard** to monitor revenue performance, cancellation trends, fulfillment efficiency, and promotion effectiveness, identifying a **14.21% cancellation rate** and **8.80% revenue leakage**.
- Provided **actionable recommendations** on fulfillment, shipping, product portfolio, promotions, and high-performing markets to improve business performance.

Telecom Customer Churn Prediction · Python · Pandas · NumPy · Seaborn · Scikit-learn · Power BI · Streamlit

- Analyzed **7,043 telecom customer records** using **Python, Pandas, and EDA** to identify customer behavior patterns and key churn drivers, revealing a **26.54% overall churn rate** and high-risk customer segments.
- Developed a **Random Forest churn prediction pipeline** with SMOTE to address class imbalance and evaluated model performance using **F1-Score, ROC-AUC, Precision, Recall, and Confusion Matrix**.
- Built an interactive **Power BI dashboard** and deployed the analytics solution using **Streamlit**, presenting churn KPIs, customer risk patterns, and actionable recommendations for improving customer retention.

Bank Loan Risk & Portfolio Performance Dashboard · Excel · MySQL · Power BI · DAX

- Analyzed **255K+ loan records** using **Excel and MySQL** to evaluate portfolio performance and identify default drivers across borrower income, employment, credit score, DTI, education, and loan purpose.
- Developed **portfolio risk KPIs** and an interactive **Power BI dashboard** using DAX to monitor loans, portfolio value, defaults, default rates, and high-risk borrower segments.
- Identified **Very Low Income borrowers** as the highest-risk segment with a **21.96% default rate** and provided recommendations for stricter screening, risk-based lending, and portfolio optimization.

Education

Bachelor of Technology in Information Technology Aug 2023 – May 2027
Vignan's Institute of Engineering for Women, Visakhapatnam **CGPA: 8.01/10**

Intermediate (MPC) Jun 2021 – Mar 2023
Narayana Junior College, Visakhapatnam **95.2%**

Certifications

Career Essentials in Data Analysis – Microsoft & LinkedIn
Data Analytics Job Simulation – Deloitte
Power BI – Simplilearn
